SKILLS

- ❖ Java
- ❖ C++
- ❖ Python
- ❖ Django
- ❖ JavaFX & SceneBuilder
- ❖ Git

EDUCATION

- ❖ B.Sc. in Computer Science & Engineering | University of Asia Pacific *CGPA: 3.65 | 2024 – Present*
- ❖ HSC (Science) | Islamia Government College, Sirajganj *GPA: 5.00 | 2021*

ACADEMIC PROJECTS

- ❖ **NotesBridge — Founder & Developer**
Built and launched a peer-to-peer platform where students upload and share course notes, replacing disorganized Facebook groups and outdated Google Drive links. Designed a Karma-point gamification system and a five-tier leaderboard (Newcomer to Legend) to reward contribution over passive downloading. Owned the project end-to-end — architecture, backend logic, and UX — and deployed it live on Render.
- ❖ **Library Management System**
Built a JavaFX desktop application to eliminate manual book check-in/check-out tracking errors, with a real-time TableView-driven interface. Reduced GUI-related crashes to zero through structured input validation and a SceneBuilder-designed UI, and applied OOP principles to separate business logic from the UI.

ACHIEVEMENTS / HOBBIES

- Dean's Award — Semester 2.1, University of Asia Pacific
- Vice Chancellor's (VC) Award — Semester 2.2, University of Asia Pacific
- Top 500 ranking on Beecrowd; active competitive programmer on Codeforces (handle: jubair_65)
- PC Gaming
- Mobile Photography
