SUMMARY

3rd-year CSE student at University of Asia Pacific (CGPA 3.65). I built NotesBridge from scratch and deployed it live — a notes-sharing platform for students with a karma and leaderboard system. I also interned at Sqrock IT, where I wrote backend APIs for real products. I compete on Codeforces (jubair_65) and Beecrowd (Top 500).

TECHNICAL SKILLS

Languages:	Java, C++, Python
Frameworks:	Django, Django REST Framework, JavaFX
Databases:	MySQL
Tools:	Git, GitHub, Render, SceneBuilder
Concepts:	REST APIs, JWT Auth, RBAC, OOP, Database Design, API Security

EXPERIENCE

Backend Developer Intern — Sqrock IT Solutions

Aug – Sep 2026

Dhaka, Bangladesh

- Wrote REST APIs for three products (SaaS, Job Portal, Banking System) using Django and DRF.
- Added JWT authentication and RBAC to lock down endpoints — had to learn it on the job.
- Handled MySQL schema design, Git workflow, and debugging with minimal hand-holding.

Founder & Developer — NotesBridge

Jul 2026 – Present

Live on Render | github.com/jubair65

- Started this because students at my university were digging through dead Google Drive links for notes — built the fix myself.
- Designed the karma + leaderboard system to get people uploading, not just downloading.
- Did everything: backend logic, database, UX decisions, and deployment on Render.

PROJECTS

Library Management System — JavaFX

2025 – 2026

Independent Project | github.com/jubair65

- Built a desktop app for book check-in/check-out that actually catches bad input instead of crashing on it.
- Separated business logic from the UI using OOP — made it much easier to add features later.

EDUCATION

B.Sc. Computer Science & Engineering — University of Asia Pacific

2024 – Present

Dhaka, Bangladesh | CGPA: 3.65 / 4.00 | Dean's Award (Sem 2.1) | VC Award (Sem 2.2)

HSC (Science) — Islamia Government College, Sirajganj

2019 – 2021

GPA: 5.00 / 5.00

ACHIEVEMENTS

- Top 500 on Beecrowd; solve problems regularly on Codeforces (jubair_65).
- Dean's Award and VC Award in back-to-back semesters at UAP.
